Forecast For London & Southeast England
Issued by Met Office Exeter
at 0400 on Tuesday 16 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Plenty of dry weather over the next few days.

Today:
Early fog slowly clearing with sunny spells developing across the south and east of the region. Cloudy in the west with the odd spot of light rain and drizzle. Cloud increasing further east but likely staying dry here. Maximum temperature 12 deg C (54 deg F).

Tonight:
Variable amounts of cloud with some clear spells allowing the odd patch of mist to form. Staying dry everywhere with light winds. Minimum temperature 3 deg C (37 deg F).

Wednesday:
Early mist patches will soon clear to leave a dry morning with long sunny spells. Staying dry during the afternoon with plenty of hazy sunshine. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Staying largely dry through the outlook period but rather cloudy and breezy at times. Mild for the time of year. Perhaps the odd spot of rain on Saturday.
